

Sequoia Hospital

Sequoia Hospital District was created by voters in 1946. They built and operated the hospital thru 1996. It is now owned and operated by CHW.

District alters role: After voters approved sale of the hospital in 1996 the District morphed into a Healthcare District. They continued collecting property taxes, using them to make unauthorized grants to other government and non-profit agencies.

Grand Jury questions District: The 2000-2002 Civil Grand Juries found that collection of taxes for a hospital it no longer owns was inappropriate, and the District's assumed philanthropic role was never approved by voters.

This election is historic! Jack Hickey's team is seeking control of the District to act on findings of the Grand Jury to: 1. reduce or terminate the obsolete hospital tax. 2. phase-out the District's presumptuous philanthropic activity.
