Dear Jack,

Please communicate solely with the District's attorney on all matters pertaining to your Public Records Act request and all other requests for financial data. We have complied with your Public Records Act request in full. Your request for direct access is something that would require a new Board Policy and you are welcome to follow the procedure for agendaing it. There is nothing to discuss further until the issue is taken up by the full Board.

Sincerely,

A handwritten signature in black ink that reads "Kim Griffin".
